

Art

Children will be introduced to the work of Zoltan **Kodaly** and his music method and they will also explore a variety of **rhythmic patterns**.

Science

Electricity

Children will look at the various components to make an electric circuit and how the length and thickness of wires affect the flow of electricity. They will investigate series and parallel circuits as well as the brightness of bulbs linked with the voltage.

RE

We will explore the following question: **what do religions say to us when life gets hard?**

Children will learn about the **Amazon** region of South America and will consider what it is like to live in that region before examining how it can be protected from further damage.

Geography

PE

Children will continue to apply and develop a broad range of skills aimed at improving their **flexibility, strength, technique, control and balance**.

Year 6

Autumn 2 - 2020

PSHE

The theme for this half term is- Celebrating Difference. Children will be learning about differences and how they make us special and unique.

Reading:

Children will be reading the following books in their classes:
