

# Scrumdiddlyumptious

Let's tickle our taste buds this half term with our Scrumdiddlyumptious topic!

This half term, we will be learning all about where our food comes from, how we can describe the taste, texture and appearance of different foods and the different processes involved in making food products.

We'll be reading a range of Roald Dahl books and delving into the magical world of Willy Wonka. We will be creating Cinder Toffee and different chocolate bars.

In Science, we will be looking at what we should be eating and how to protect our teeth. In art and design, we'll look closely at fruits and vegetables and sketch what we can see. We'll follow recipes and learn about foods from around the world.

At the end of the unit of work, we will make and produce our own chocolate and design our own packaging to sell to our friends and families at the end of the school day. We will also have a regal cream tea and sample the delicious cakes and sandwiches we have made.

## Home Learning

- This is a perfect opportunity to taste new foods and have a go at following recipes. Why not bake healthy muffins or prepare a slow cooker stew together? You could also sample adventurous foods from around the world. Alternatively, you could read the packaging of foods in your fridge to find out where they have come from.

# JOHN GULSON PRIMARY SCHOOL

## Year 3 Curriculum (Spring 1)
